

Get to know us! We're the particles that make up an atom, namely protons, neutrons and electrons. We have a fun game for your class where you make a human atom model and wear us as hats. This lab is found at: <https://www.stemtaught.com/g5atomodelinghats>.

Enjoy, and we hope to play with your class soon.

Sincerely,
The Particle Zoo

P.S. Print this file to get a set of particles. Use them as hats if you can't find your set in the Koa or use the images to decorate your room.
